● ABOUT MYSELF

I'm a passionate and detail-oriented Full Stack Developer with a strong foundation in Computer Science and hands-on experience building real-world systems. I specialize in the **MERN stack** and modern JavaScript development, including **React (Vite), Node.js, Express, and MongoDB**, with a focus on performance, scalability, and clean architecture.

I gained professional experience at **Phoenixopia Solution PLC**, where I contributed to full-stack projects, UI development, backend systems, and workflow optimization. Before that, I completed an internship at **ANRS Industry Park Development Corporation**, working on website development, maintenance, and engineering-related tasks. These roles strengthened my problem-solving skills, teamwork, and ability to deliver high-quality solutions under deadlines.

I have a solid understanding of **OOP concepts, algorithms, time complexity**, and I continuously improve my skills in areas like **unit testing, system optimization, and modern web technologies**. Today, I work as a **freelance full-stack developer**, helping clients build reliable, user-friendly, and efficient digital products.

I'm a fast learner, highly motivated, and committed to writing clean, efficient code that solves real problems and delivers real value.

● WORK EXPERIENCE

07/2024 - 10/2024 - BAHIR DAR, ETHIOPIA

WEB DEVELOPER INTERN ANRS INDUSTRY PARK DEVELOPMENT CORPORATION

-Contributed to website development and system maintenance for ANRS Industry Park Development Corporation , Focusing on optimizing digital platforms for operational efficiency and user experience.

10/05/2025 - 29/10/2025 - ADDIS ABABA, ETHIOPIA

FULL STACK DEVELOPER NATNAEL TESFAYE

- build modern , scalable system
- responsive design for different device
- coaching a junior developers.
- Integrate backend API with frontend layer
- Testing system

● EDUCATION & TRAINING

2021 - 2025 - DEBRETABOR

BACHELOR OF SCIENCE IN COMPUTER SCIENCE- DEBRETABOR UNIVERSITY

Level in EQF: 6 | Website: <https://dtu.edu.et/>

● LANGUAGE SKILLS

Mother tongue(s): **AMHARIC**

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	B2	B2	B2	B2	C1

● SKILLS

Java (computer programming) | JavaScript Framework | web programming | PHP | MERN Stack (MongoDB, ExpressJS, ReactJS, NodeJS) | Dart programing language | BootstrapCSS, TailwindCSS | Apache's APIs | database management systems

● CERTIFICATIONS

29/10/2025 Phoenixopia solutions PLC

Full Stack Development

Work based - Full-Stack Developer with strong experience in building responsive user interfaces, developing robust backend systems, and integrating end-to-end solutions that improve workflow efficiency. Demonstrates excellent technical ability, problem-solving skills, and professionalism. Known for delivering high-quality work on time, working collaboratively in development teams, and contributing meaningfully to project success. Write here the description...

05/07/2025 - 02/01/2026

Lease Takeover System (Website + Mobile app)

A mobile application designed to facilitate lease takeovers between property owners and tenants. The system allows users to post listings with images, manage conversations through real-time messaging, and securely handle authentication. Built with **React Native (Expo)** for the frontend and **Node.js + PostgreSQL + Sequelize** for the backend, featuring image uploads, user profiles, and a clean, intuitive UI.
